

The Arcadia Series

Molded Fiberglass Garage Doors

*Shown above in Solid Mahogany and White
on the right with Monticello windows.*

The **Arcadia** is a molded, stainable, patented fiberglass garage door to complement today's fiberglass entry doors. Extremely resistant to the elements including coastal salt sprays and virtually any type of impact. The outside skin is fiberglass, the inside skin is white prefinished steel. The core of the door is filled with R-15.07 Urethane foam insulation. This long lasting, high definition model is a major improvement over conventional stamped steel garage doors.

Kevmar Limited Warranty

Raised Panel Molded Fiberglass Door Sections

Kevmar hereby warrants the above fiberglass door sections for as long as the original end user (homeowner) owns the home the doors were installed in, against any structural failure causing the door to become inoperable.

All factory-applied finishes are warranted for a period of three (3) years against any defects in material and workmanship. Kevmar will not be responsible for any customer supplied or applied finishes or coatings.

In the event the sections are defective, send a claim in writing to Kevmar Mfg. 188 E CR 600 N Arthur, IL 61911 within fifteen (15) days of the discovery of the suspected defect.

Kevmar shall then be permitted to replace at it's option the defective section(s).

This limited warranty excludes any and all damages resulting from causes beyond manufacturer's control.

Kevmar shall not be responsible for any incidental or consequential damages arising out of any breach of this express limited warranty. Warranty does not cover any field labor costs.
